Health Care "Rx"

By RichardLee@ClearChannel.Com

"Don't nibble around the edges"...That's the message from a researcher with the Iowa Policy Project to lawmakers. University of Iowa Professor Colin Gordon releasing a study of health care coverage for the Iowa Fiscal Partnership called "Prescriptions and Placebos". Professor Gordon says if lawmakers keep trying to take a "piecemeal" approach to fixing employer-provided health care coverage...it'll be like "hauling furniture into a burning building"..."rearranging deck chairs on the Titanic"...He says you can pick your metaphor. Gordon's paper says states like Iowa should...expand health care coverage...and that coverage should be seamless, accessible and portable....as well as affordable and meaningful.
